

Demo Login Credentials

Everyone below is real, registered, and ready to log in — no setup needed before presenting.

nypkaki.vercel.app

NAME	ROLE	EMAIL	PASSWORD	USE THIS ACCOUNT TO SHOW...
Wei Jie Koh	TUTOR	weijie.koh.demo@example.com	demo1234	Database Systems tutor with a real 5★ rating, 1 completed session, and 1 upcoming session already on the calendar.
Aisyah Rahman	TUTOR	aisyah.rahman.demo@example.com	demo1234	Programming tutor, 5★ rating, plus one still-pending request — a realistic ~50% response rate instead of a suspiciously perfect one.
Nathaniel Ong	TUTOR	nathaniel.ong.demo@example.com	demo1234	Full Stack Development tutor, 4★ rating with genuine constructive feedback text — shows ratings aren't all fake 5s.
Chloe Tan	STUDENT	chloe.tan.demo@example.com	demo1234	Student view: 2 completed sessions, 1 pending request — good default account for the whole "student side" walkthrough.
Ryan Goh	STUDENT	ryan.goh.demo@example.com	demo1234	Has 1 completed + 1 upcoming session — best account for showing the Sessions page's Upcoming state live.

ADMIN ACCESS

You already hold the admin login (demo@peerlink.app) — use it for the roster import/export demo at `/admin/directory`. Not included here since I don't have that password.

Before you go live: log into two of these accounts in two separate browser windows (e.g. one normal, one incognito) ahead of time — one tutor, one student — so you can flip between "what the student sees" and "what the tutor sees" without logging in and out mid-demo.
